

Yi Zhuo
Nimbus Racing Broom co
Hogwards, USA

Dear Yi Zhuo,

I would like to take this opportunity to discuss and introduce the company I'm currently employed for. We are Bobby's salvage yard, a private salvage yard that specializes in haunted free scrap metal and body disposal. We provide a variety of services that include removal and storage of bodies and scrap metal in state of the art facilities to prevent any contact with a hunted body.

Nimbus Racing Broom Company is well known for developing and refurbishing brooms mostly used for quidditch. At Bobby's salvage yard we believe that your company has implemented technology that has a very good potential to change the transportation systems we currently use. We would like to have a broom system that flies itself to the location of a body, picks it up and brings it back to the yard without any human interaction. The broom must meet specific requirements and therefore I would need to know the maximum speed, altitude and weight your current broom technology is able to provide. At the same time I would like for you to inform me about your brooms 'in flight' failure rate as well as anything else that could cause problems while transporting items. I am also requesting information regarding current warranty policies and cost of production for each broom. In order to participate in this partnership your company must be willing to redesign the broom system to accommodate our needs.

It is in this respect that we would like to extend our interest in forming a partnership with your company for transforming the body transportation systems we currently have in place. We believe that our services can compliment your broom sales by further expanding the scope of your company from simple recreational services into transportation. By cooperating, I believe we have the potential to further expand and grow our companies by revolutionizing an industry.

Should you be interested in starting the partnership I have proposed or have any questions in its regard, please feel free to give me a call at 3368886666 or send me an email at Nicogonzalez@bobsyard.com. Thank you very much, and we hope to receive your favorably response soon.

Best regards,

Nico Gonzalez
